CALIBER[®] EdgeGuard – 12pc. Kit

Installation instructions for Part No. 13388

Tools Required:

- Power drill
- Pencil or marker
- Chalk line *optional*

Step 1:

 Remove contents from the packaging and ensure that the included items listed above are contained in the box. If items are missing, visit http://www.caliberproductsinc.com/Warranty.php to request your missing hardware.

Step 2:

- Using a straight edge, or a chalk line, mark your line of installation on your trailer door. Make sure this line stays within door cables, and door frames, to allow your door to freely open and close.

Step 3:

- EdgeGuards have interlocking tabs that connect all the pieces. The components can be installed as one continuous piece (6ft.), or in clusters of 3, 4, or 6-piece sets, for doors longer than 6ft.
- Install your EdgeGuards along your pre-determined line created in <u>Step 2.</u>

- Ensure your door opens and closes without any clearance issues after installation.
